

PikeRide and UCCS Pilot Program

October 21 thru November 1, 2019

PikeRide bikes can be ridden outside of the coverage areas without accruing additional fees, but trips can only be ended within the coverage areas.

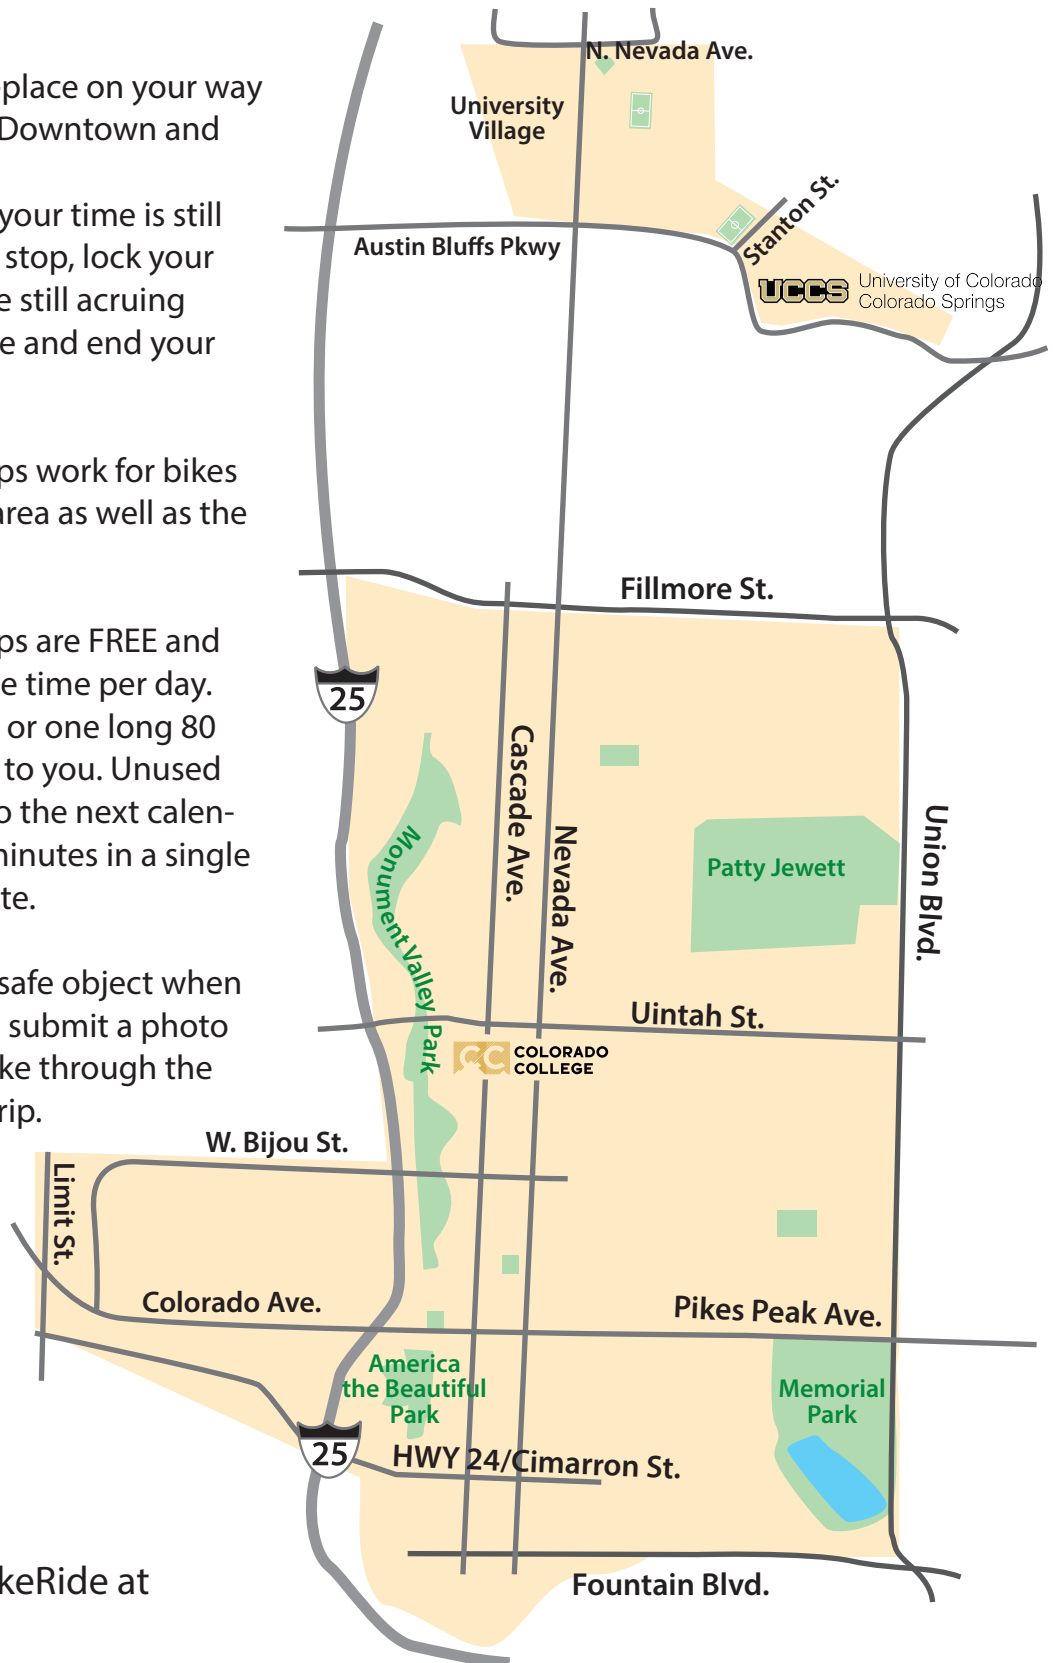

Example: If you stop someplace on your way south from campus to go Downtown and lock your bike your trip will not end meaning your time is still rolling. Simply make your stop, lock your bike, be aware that you are still accruing time, get back on your bike and end your trip Downtown.

Pilot program memberships work for bikes in the downtown service area as well as the UCCS service area.

Pilot program memberships are FREE and good for 80 minutes of ride time per day. Take 10 eight minute trips or one long 80 minute trip, its entirely up to you. Unused minutes do not roll-over to the next calendar day. Any use over 80minutes in a single day will be billed .15 minute.

Bikes must be locked to a safe object when not in use and users must submit a photo of their properly locked bike through the app in order to end their trip.
